

PhD and ScD, Professor Revaz Solomonias, specialist of Biochemistry and Molecular Biology, is a Co-Director of Institute of Chemical Biology at Ilia State University, Chief Scientist at Ivane Beritashvili Center of Experimental Biomedicine and former Head of Laboratory of Biologically Active Compounds at I. Javakhishvili Tbilisi State University. Professor Solomonias performed some research at International Center of Biological Studies in Szeged, Hungary, and at the Department of Zoology, University of Cambridge as a fellow of Wellcome Trust. In the following years, Dr. R.Solomonias received two Wellcome Trust fellowship and two Royal Society grants for joint project between the Institute of Physiology and University of Cambridge. Dr. Solomonias received more than 20 international and local research grants. His research interests lies in the field of Molecular Neurobiology and Microbiology. Professor Solomonias is a member of numerous international scientific societies, including IBRO, FENS, FEBS and Sigma Xi, and is the President of Georgian Society of Biochemists. In 2017 he received FEBS National Lecture Award

Concentration- and time-dependent effects of myo-inositol on evoked epileptic afterdischarge in the hippocampus in vivo. Gamkrelidze GN, Nanobashvili ZI, Bilanishvili IG, Lordkipanidze T, Kandashvili M, Kokaia M, Solomonias RO. *Neuroreport*. 2019 Nov 6;30(16):1129-1134.

Long-Term Effects of Myoinositol on Behavioural Seizures and Biochemical Changes Evoked by Kainic Acid Induced Epileptogenesis. Tsverava L, Kandashvili M, Margvelani G, Lortkipanidze T, Gamkrelidze G, Lepsveridze E, Kokaia M, Solomonias R. *Biomed Res Int*. 2019 Feb 28;2019:4518160.

Micro-RNAs, their target proteins, predispositions and the memory of filial imprinting. Margvelani G, Meparishvili M, Kiguradze T, McCabe BJ, Solomonias R. *Sci Rep*. 2018 Nov 28;8(1):17444.

Mitochondrial fusion and fission proteins and the recognition memory of imprinting in domestic chicks. Margvelani G, Meparishvili M, Tevdoradze E, McCabe BJ, Solomonias R. *Neuroreport*. 2018 Jan 17;29(2):128-133.

Myoinositol Attenuates the Cell Loss and Biochemical Changes Induced by Kainic Acid Status Epilepticus. Tsverava L, Lordkipanidze T, Lepsveridze E, Nozadze M, Kikvidze M, Solomonias R. *Biomed Res Int*. 2016;2016:2794096.

A Proteomic Study of Memory After Imprinting in the Domestic Chick. Meparishvili M, Nozadze M, Margvelani G, McCabe BJ, Solomonias RO. *Front Behav Neurosci*. 2015 Nov 26;9:319. doi: 10.3389/fnbeh.2015.00319. eCollection 2015.

Comparative Proteomic Studies of *Yersinia pestis* Strains Isolated from Natural Foci in the Republic of Georgia. Nozadze M, Zhgenti E, Meparishvili M, Tsverava L, Kiguradze T, Chanturia G, Babuadze G, Kekelidze M, Bakanidze L, Shutkova T, Imnadze P, Francesconi SC, Obiso R, Solomonias R. *Front Public Health*. 2015 Oct 16;3:239. doi: 10.3389/fpubh.2015.00239.

Molecular mechanisms of memory in imprinting. Solomonias RO, McCabe BJ. *Neurosci Biobehav Rev*. 2015 Mar;50:56-69.

The protective effect of myo-inositol on hippocamal cell loss and structural alterations in neurons and synapses triggered by kainic acid-induced status epilepticus. Kotaria N, Kiladze M, Zhvania MG, Japaridze NJ, Bikashvili T, Solomonias RO, Bolkvadze T. *Cell Mol Neurobiol*. 2013 Jul;33(5):659-71.

AMPA receptor phosphorylation and recognition memory: learning-related, time-dependent changes in the chick brain following filial imprinting. Solomonias RO, Meparishvili M, Mikautadze E, Kunelauri N, Apkhazava D, McCabe BJ. *Exp Brain Res*. 2013 Apr;226(2):297-308.

Myo-inositol treatment and GABA-A receptor subunit changes after kainate-induced status epilepticus. Solomonias R, Gogichaishvili N, Nozadze M, Lepsveridze E, Dzeladze D, Kiguradze T. *Cell Mol Neurobiol*. 2013 Jan;33(1):119-27.

Ductular reaction at the early terms of common bile duct ligation in the rats. Azmaiparashvili E, Berishvili E, Kakabadze Z, Pilishvili O, Mikautadze E, Solomonias R, Jangavadze M, Kordzaia D. *Acta Biol Hung*. 2012 Sep;63(3):321-32.

Mitochondrial proteins, learning and memory: biochemical specialization of a memory system. Solomonias RO, Kunelauri N, Mikautadze E, Apkhazava D, McCabe BJ, Horn G. *Neuroscience*. 2011 Oct 27;194:112-23.
