

Dr. Khatuna Parkosadze, is the bright representative of young generation of Georgian neuroscientists. Dr. Parkosadze performs her research at the Laboratory of Vision of Physiology, Ivane Beritashvili Center of Experimental Biomedicine and at the Institute of Cognitive Neuroscience, Free University of Tbilisi. Dr. Parkosadze has experience of working and internships with many scientific schools in Europe, including University of Bundeswehr Munich, Germany, Paris Descartes University, France, Leibniz Research Centre for Working Environment and Human Factors (IfADo), Dortmund, Germany, University of Kiel, Schleswig-Holstein University Hospital (UKSH), Kiel, Germany. Dr. Parkosadze's main scientific interest is the cognition and perception during aging, in typically developing children and children with neurodevelopmental disorders. Dr. Parkosadze is a principal investigator of many scientific projects funded by national and international scientific funds and the owner of the number of prestigious awards.

Dr. Parkosadze is an author of about 15 scientific articles. Among them:
The role of one-shot learning in #TheDress. Drissi Daoudi L, Doerig A, Parkosadze K, Kunchulia M, Herzog MH. *J Vis.* 2017 Mar 1;17(3):15.
Time-based event expectancies in children with Autism spectrum disorder. Kunchulia M, Tatishvili T, Lomidze N, Parkosadze K, Thomaschke R. *Exp Brain Res.* 2017 Sep;235(9):2877-2882.

Ageing and visual spatiotemporal processing. Pilz KS, Kunchulia M, Parkosadze K, Herzog MH. *Exp Brain Res*. 2015 Aug;233(8):2441-8.

Spatial and temporal aspects of visual backward masking in children and young adolescents. Pilz KS, Kunchulia M, Parkosadze K, Herzog MH. *Atten Percept Psychophys*. 2016 May;78(4):1137-44.

Persistent biases in subjective image focus following cataract surgery. Parkosadze K, Kalmakhelidze T, Tolmacheva M, Chichua G, Kezeli A, Webster MA, Werner JS. *Vision Res*. 2013 Aug 30;89:10-7.

Perceptual learning of bisection stimuli under roving: slow and largely specific. Parkosadze K, Otto TU, Malania M, Kezeli A, Herzog MH. *J Vis*. 2008 Jan 11;8(1):5.1-8. doi: 10.1167/8.1.5.
